

GRADE AT A GLANCE

Welcome to 4K!

Welcome to 4K! Mrs. Holman and Ms. Peterson are so excited to meet you and learn with you this year. In 4K you will learn how to take your math, language skills and social-emotional learning to the next level! Persevere!

CKLA prepares for later reading success by building foundational language, literacy skills and content knowledge divided into seven domains:

- All About Me
- Families and Communities
- Animals
- Plants
- Habitats
- Classic Tales
- Important People in American History

CKLA

Bridges Pre-K features a combination of whole-group, small-group, and activities that are problem centered. We will engage in three major kinds of activities: Number Corner, Problems & Investigations, and Work Places. Bridges is playful and play-based, designed to engage children through the use of contextual themes, games, stories, mysteries and intriguing problems, manipulatives and visual models.

BRIDGES

Mrs. Holman

Ms. Peterson

Shell Lake 4K is full of fun and excitement! Some highlights include a family engagement opportunity each month, such as field trips to the apple orchard, school forest, State Fish Hatchery, Hunt Hill Audubon Sanctuary, the beach and a Positive Parenting Program.

HIGHLIGHTS
